

RETURN

ReTurn is an easy-to-use and incredibly effective assistive device for sit-to-stand and transfer, but it is also a rehabilitation device.

ReTurn enables safe and active sit-to-stand and transfers to or from the bed, wheelchair or toilet and enables easy transfers without heavy lifting for caregivers.

ReTurn stimulates the natural pattern of movement during sit-to-stand, while at the same time strengthening the muscles and functional ability. This also makes it the ideal assistive device for rehabilitation.

DERMASAVER & HIPSAVER

DermaSaver is made with a revolutionary multi-layered MicroSpring textile offering breathability, moisture transfer and anti-microbial protection not possible with gels, foams or fleece.

Available in a variety of sizes for upper and lower limbs DermaSaver creates a loose-fitting, nonconstricting, flexible sleeve which holds its shape, protecting fragile skin and preventing skin tears, abrasions and friction. HipSaver also provides comfortable, breathable, padded hip protection.

Prices start from \$71

Prices start from \$329

MOBELI GRAB RAILS

The safety indicator of the Mobelli handles is revolutionary and differentiates them from others on the market.

The Mobelli safety lock constantly monitors the vacuum and shows a warning if the handle is unsafe and/or needs to be reset. Those with visibility impairments can check the safety indicator by touch to know if it is safe.

Prices start from \$225

WENDYLETT

The WendyLett sheets are intended for users who have difficulties turning or positioning in bed.

Made of mixed material fabric the cotton provides comfort while strong polyester ensures functionality and durability and satin enables turning with minimal effort.

Easy to use, the colours and patterns of the fabric indicate the function of the sheet without the risk of sliding off the bed in an unintended direction.

Prices start from \$166 per set
