Compass Chair

Designed to blend into the classroom, this is the perfect inclusion chair. With its supportive seat, sturdy frame, and anti-tip feet it offers security and comfort to those who need a little extra support. Suitable up to 113kg.

Activity Chair

The perfect positioning chair, it provides highly adjustable and adaptable seating for those with high positioning needs. Allowing for growth, multiple users and various activities. Suitable up to 113kg.

Convaid Buggies

Available in a 10 degree or 30 degree fixed-tilt or tilt in space, these paediatric buggies are supportive, convenient and collapsible. Equipped with the Self-Tensioning system, the Cruiser, EZ Rider and Rodeo provide increased seating tolerance and can help promote neutral pelvic positioning. Suitable up to 110kg.

DoBuggy

A cost effective, lightweight, foldable paediatric buggy designed for children with special needs. Offering a range of supports and accessories to enhance ease of use and safety, the DoBuggy is a convenient buggy option for travel and day to day activities. Suitable up to 50kg.

Zing Portable

Zing

The new standard for early intervention. This unique stander is suitable for Infants up to 91cm/16.3kg, and has both supine and prone functionality. Folding down to a small size, and weighing just 7.4kg it can be transported and stored with ease.

Zing MPS

Zing

The only multi-position stander that pivots two directions, allowing the unit to go from flat-to-load supine to 20 degrees prone in one motion without removing the user. It also provides up to 30degree independent hip abduction. Suitable from 9months old up to 152cms/70kg.

Bantam

EasyStand

The Bantam line of standers are the only sit to stand standers that can combine the option of supine positioning to create infinite positioning possibilities from 90-90 sitting, fully vertical standing, full supine lying and anywhere in between. Suitable for users 71cm – 167cm up to 91kg

Evolv

EasyStand

The most supportive and comfortable sit to stand stander available. With over 60 options and configurations, each unit can be built specifically for an individual or facility. Suitable for users up to 208cm up to 160kg

Dynamic Pacer

The dynamic pacer is the most versatile, adaptable and durable gait trainer, easily configured with accessories and base options to meet your client's every need. The dynamic feature allows for dynamic weight-bearing and weight-shifting providing a more natural gait pattern and easier stepping. Suitable up to 113kg.

E-Pacer

The E-Pacer combines the powerful electric lift column and secure body support of the TRAM with the key gait training features of the classic Pacer, eliminating the transfer into a gait trainer. It's design also allows seat-to-seat transfer and sit-to-stand functionality. Suitable up to 158kg, and for all ages.

TRAM

rifton

TRAM: A transfer and mobility device designed to deliver three powerful functions in one compact unit - gait training, sit-to-stand transfers and seated transfers. Suitable up to 158kg.

Kaye Walker

KAYE Products Inc.

Designed to make walking less energy consuming, improve alignment and maximizing potential for walking. The Kaye walker is foldable and lightweight and available in 6 sizes and with a range of accessories. Suitable up to 113kg.

Adaptive Tricycle

rifton

Adaptive Tricycle: Everyone loves to cycle, and with a sporty adaptive tricycle from Rifton, everyone can have a set of wheels giving them the freedom to take off and go. Suitable up to 91kg.

Pluto

REBOTEC

This posterior walker provides independent walking for children, supporting the user from behind and promoting upright posture when standing and walking. Suitable up to 80kg.

Fixi / Fox

REBOTEC

Anterior walker providing stability and independence for children while being lightweight, foldable and easy to transport. Suitable up to 100kg.

Fun Kids Crutches

REBOTEC

Fun Kids is a colourful height adjustable crutch from handle to cuff for children. Suitable up to 100kg.

Hygiene & Toileting System

rifton

Hygienic, simple and affordable, the HTS promotes positioning that is ideal and natural for effective toileting as well as being supportive and comfortable as a shower chair. It's usable on, over and off the toilet and has a range of accessories to make it customisable for any client. Suitable up to 113kg.

Wave

rifton

When we make bathing easier, our clients are healthier. The Wave system has been designed to improve bathing and showering - for the client and for the caregiver. With generous padding to protect skin integrity and multiple base options to suit most bathroom configurations the wave offers a soft chair option for young and old. Suitable for up to 113kg.

Support Station

rifton

The Support Station's unique features enable even partially weight-bearing individuals to receive hygiene care or a diaper change in an upright position - making the process more dignified, improving access to clothing and skin, and eliminating heavy lifting on the part of the caregiver. Suitable up to 113kg.

Augsberg

REBOTEC

Designed and manufactured to the highest quality in Germany the Augsberg combines padded comfort with options to suit different abilities including a self propelling model. Swing away armrests and footplates make transfers simple. Suitable up to 80kg.

Sensory Products

Sensory environments are special rooms or spaces designed to develop a person's senses and can be used as a therapy for both children and adults alike with limited communication skills. We provide mobile sensory trolleys as well as fixed bubble columns, projectors and fibre optics to convert any space into a sensory experience.

Airex Mats and Pads

We have a range of therapy mats and balance pads available to assist in a range of client therapies.
